COMMUNITY EDUCATION PRESCHOOL

Preschool through community education lets your child experience a variety of fun and educational activities designed to stimulate their social and intellectual development as they move along the road to kindergarten. Children will be able to explore the areas of art, music, dramatic play, physical fitness and literature along with developing the cognitive skills that include language and problem-solving abilities. Experience in these areas help build self-confidence, which is very beneficial to achieving success in school. Students need to be current with immunization records and need to bring updated records to the first class. Must be four years of age by January 1, 2006. Need to provide own transportation. Questions call (320)243-KIDS.
